模板运行解决:

在根目录下新建文件: vite.config.js

内容:

```
import { defineConfig } from 'vite'
import vue from '@vitejs/plugin-vue'
import path from 'path'

export default defineConfig({
   plugins: [vue()],
   resolve: {
     alias: {
        '@': path.resolve(__dirname, 'src')
     }
   }
}
```

之后:

```
npm install
npm run dev
```
